PROFESSIONAL SUMMARY

Frontend Developer with 1+ year of experience building responsive and scalable web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Experienced in API integration, Firebase services, reusable component development, performance optimization, and responsive design. Contributed to the successful delivery of multiple production applications while collaborating in Agile development environments.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Python

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Libraries & Concepts: React Hooks, Context API, Component Architecture, State Management

Backend & Database: Firebase, REST APIs, MySQL, SQL, Node.js

Tools: Git, GitHub, VS Code, Chrome DevTools, Figma

CORE COMPETENCIES

React.js | Next.js | TypeScript | JavaScript (ES6+) | Tailwind CSS | HTML5 | CSS3 | Responsive Design | REST API Integration | Firebase | Git & GitHub | UI Development | State Management | Component-Based Architecture | Agile Development | Cross-Functional Collaboration | Problem Solving | Debugging | Performance Optimization

PROFESSIONAL EXPERIENCE

Frontend Developer, Webshlok Digital Services LLP

Feb 2025 – Present

- Delivered 5+ production-ready web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Architected 15+ reusable UI components, reducing development effort by 25% and accelerating feature delivery.
- Integrated 12+ REST API endpoints and Firebase services, improving data accessibility and reducing manual processing by nearly 40%. Enhanced mobile responsiveness across 8+ client websites for consistent user experiences.
- Managed Git/GitHub workflows within a 5-member team, supporting weekly releases with minimal conflicts. Contributed to 15+ feature launches through testing, peer reviews, and deployment validation.
- Resolved 50+ frontend bugs and UI inconsistencies, improving stability and user satisfaction. Collaborated with designers and stakeholders across 10+ project iterations to align deliverables with requirements.

PROJECTS

Travel IQ – IRCTC Agent Onboarding & Dongle ID Automation System

Live | GitHub

- Engineered a centralized onboarding solution that streamlined IRCTC registration procedures.
- Incorporated Aadhaar validation, banking information capture, and application-tracking capabilities.
- Crafted intuitive interfaces with React.js, TypeScript, and Tailwind CSS.
- Transformed manual workflows into an organized digital ecosystem.
- Accelerated operational efficiency through structured automation and data management.

Travel IQ – Login Page

Live | GitHub

- Designed a secure authentication portal focused on usability and responsiveness.
- Implemented validation mechanisms that strengthened input accuracy and user interaction.
- Structured modular frontend architecture to simplify future enhancements.
- Enhanced navigation flow through clean layouts and accessibility-focused practices.

Photocopy Order Management System

GitHub

- Automated print-order handling through a structured management platform.
- Simplified tracking procedures using organized information storage techniques.
- Streamlined operational activities for faster request processing.

Text-to-Speech Converter

GitHub

- Integrated speech-synthesis functionality for converting written content into audio.
- Produced natural voice output through browser-supported technologies.
- Optimized interaction flows with a clean and responsive interface.

EDUCATION

Master of Computer Applications (MCA)

2023 – 2025

K.R. Mangalam University, Sohna

Bachelor of Science (Mathematics Hons.)

2017 – 2020

Rajendra Memorial Women's College, Bihar
